TITLE 24, PART 6

2025 CODE CYCLE

2025 Title 24 Energy Code Update

California Statewide Utility Codes & Standards
Enhancement (CASE) Team

Welcome from Statewide CASE Team

Nikki Westfall

Energy Solutions, on behalf of Statewide Utility
Codes and Standards Enhancement Team
nwestfall@energy-solution.com

Today's Agenda

9:00 AM Introduction

9:20 AM Overview

9:25 AM Night Set-Back, Exhaust Fan Control, Heat Recovery Backup, and Summary of Stakeholder Feedback

10:10 AM Cost Effectiveness, Energy Savings

10:30 AM Summary

10:35 AM Conclusion and Wrap Up

10:45 AM Adjourn

Thank you for participating!

We want to hear from you! If comments can't be answered today, CASE Authors will follow up separately within 5 business days.

4 ways to engage:

- Verbally using the hand raise function in GoTo Webinar
- Go To Webinar Questions Pane
- Mentimeter Polls: Go to Menti.com and enter code
- Email us at info@title24stakeholders.com

Technical Issues? Use GoTo Webinar's Questions feature to connect with our technical support team

GoTo Webinar Logistics

- Close all running programs

- Audio

You can use your phone instead of computer audio →

- Questions →

- Handouts (or Title24Stakeholders.com) →

- Raise Hand

- Survey at end

- Mentimeter (**Menti.com**)

File View Help  _ □ ↗ ✕

Webinar ID: 772-531-483

 This session is being recorded.

 **GoToWebinar**

Mentimeter Logistics

- ✓ Go to Menti.com
- ✓ Enter the code
- ✓ Participate in polls

The screenshot shows a web browser window with the URL "menti.com". The page features the Mentimeter logo, which consists of a stylized bar chart with red, blue, and pink bars. Below the logo, the text "Mentimeter" is displayed in a large, bold, black font. Underneath the name, the instruction "Please enter the code" is written in a smaller, blue font. A text input field with a blue border contains the code "1234 5678". Below the input field is a blue button with the word "Submit" written in white text.

Input provided through Menti are anonymous.

If you feel comfortable, identify yourself so we can follow up with you directly to better understand your suggestions.

CEC Introduction

- Authority and Process
- Drivers and Themes
- Contacts

Javier Pérez

California Energy Commission

Javier.Perez@energy.ca.gov

California Energy Commission's Authority & Process

Public Resources Code

(PRC 25402): Reduction of wasteful, uneconomic, inefficient, or unnecessary consumption of energy

- Warren Alquist Act Signed into law in 1974
- Mandates updates Building Efficiency Standards and requires the building departments to enforce them through the permit process

WARREN-ALQUIST ACT

Warren-Alquist
State Energy Resources
Conservation and
Development Act

Public Resources Code
Section 25000 et seq.

CALIFORNIA
ENERGY COMMISSION
Gavin Newsom, Governor

2022 EDITION
JANUARY 2022
CEC-140-2022-001

2025 Energy Code Drivers and Themes

State Goals

- Contribute to the state's GHG reduction goals
- Increase building energy efficiency cost-effectively

2025 Energy Code Strategies

- Heat pump baselines
- Promote demand flexibility, Solar PV generation and energy storage
- Covered process loads
- Equity & affordable new housing program integration
- Additions, alterations, and smaller homes (e.g., ADUs)
- Electric vehicle readiness support
- Interagency coordination

2025 Energy Code Senior Staff Contacts

Javier Perez – Project Manager

Payam Bozorgchami – Technical Lead,
Envelope, Additions and Alterations, ADUs

Haile Bucaneg – Covered Process, Demand
Response, Nonresidential and Residential ACM

Muhammad Saeed – Solar Photovoltaic and
Energy Storage Systems

Bach Tsan – HVAC Systems, Refrigeration

Email Convention at the Energy Commission:

PG&E Introduction

- Statewide Utility Codes and Standards Team
- Project Schedule & Milestones

Kelly Cunningham

PG&E

Kelly.Cunningham@pge.com

How the Utility Team Supports the 2025 Code Cycle

General priorities:

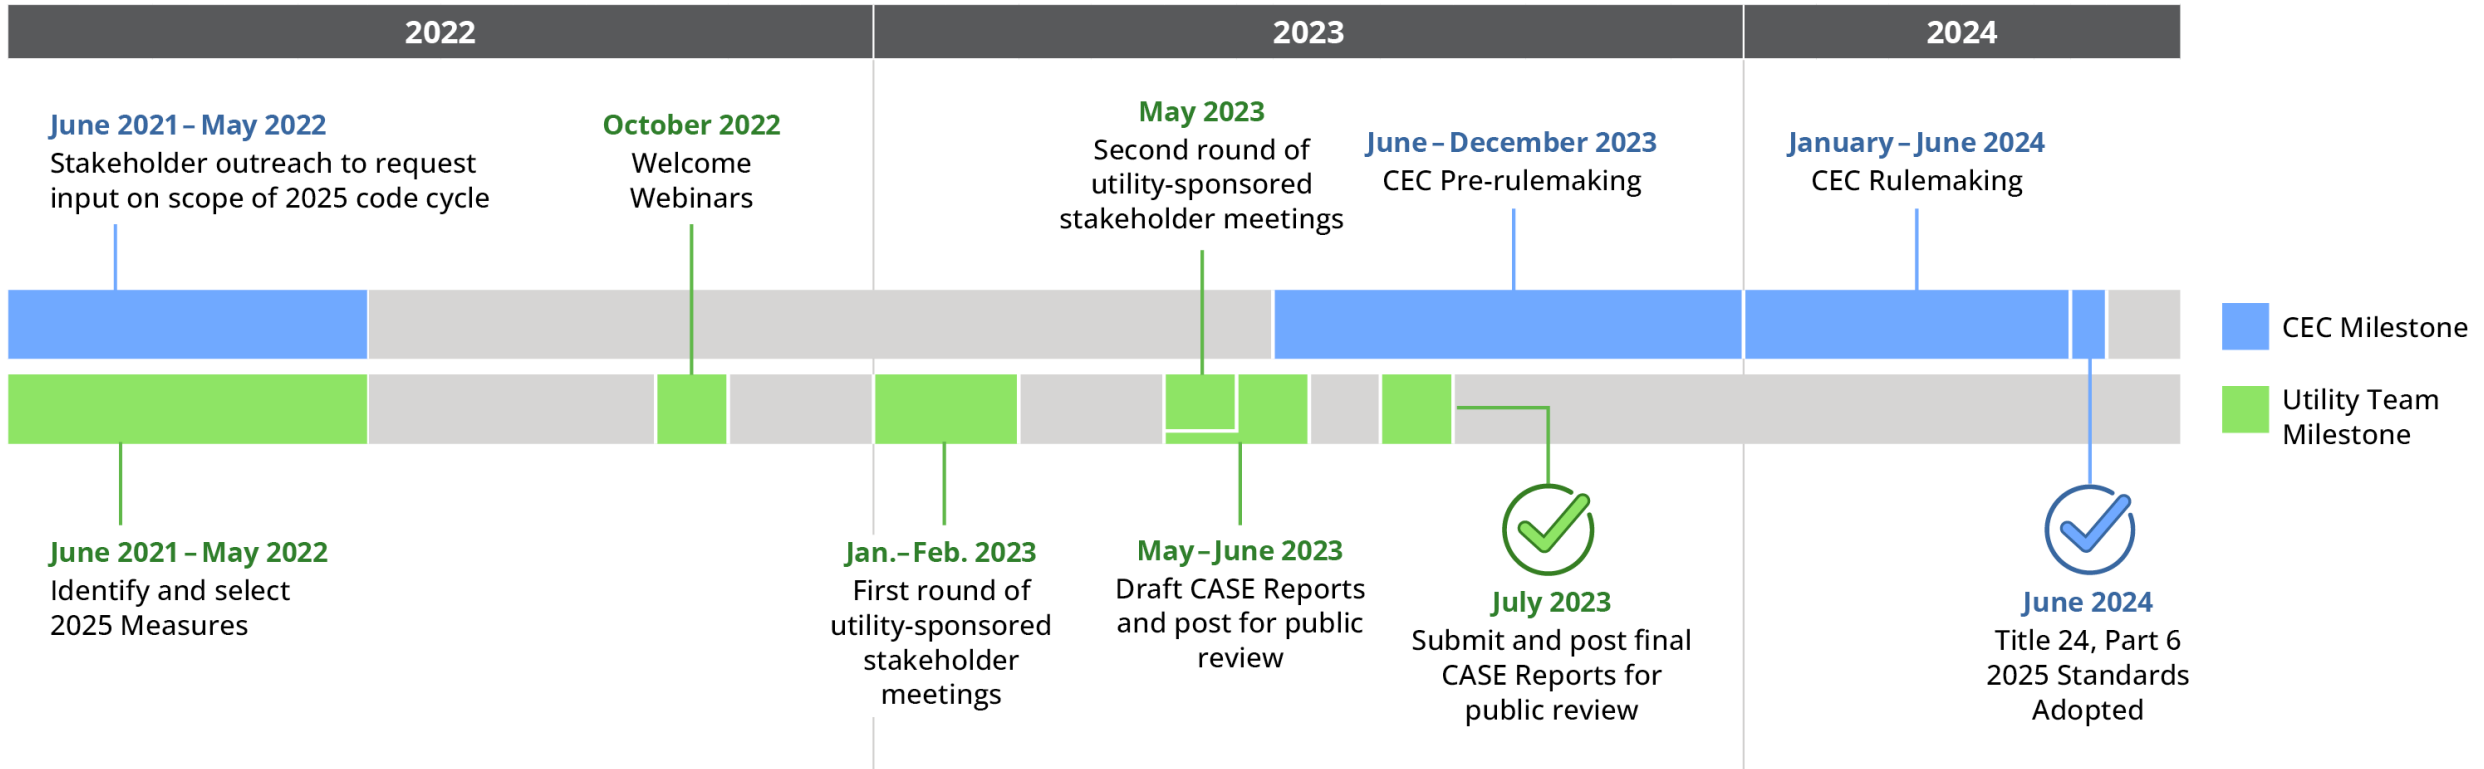

- Support CEC in achieving statewide policy goals
- Cost-effective energy savings (kWh, kW, Therms)
- GHG emissions reductions

Options for utility team support:

- Develop Code Change Proposals (CASE Reports)
- Provide data for proposals CEC develops
- Collaborate with other stakeholders who are developing proposals
- Support software improvements

2025 Cycle Project Schedule & Milestones

Estimated Schedule for 2025 Code Cycle

Milestone	Tentative Dates
Measure identification and selection	June 2021 – May 2022
CEC Updates Weather Files and Develops 2025 TDV	November 2021 – October 2022
Research version of CBECC with 2025 TDV and weather files available	October 2022
Welcome Webinars	October 2022
First Round of Utility-Sponsored Stakeholder Meetings	January – February 2023
Utilities Submit Draft CASE Reports to CEC and Post for Public Review	May – June 2023
Second Round of Utility-Sponsored Stakeholder Meetings	May 2023
CEC Pre-rulemaking Workshops	June 2023 – December 2023
Utilities Submit Final CASE Reports to CEC and Post for Public Review	No Later than July 31, 2023
Express Term Review	October 2023
45-Day Express Terms Review	January – February 2024
15-Day Express Term Review	Beginning of April 2024
2025 Title 24, Part 6 Adopted	End of June 2024
2025 Title 24, Part 11 (CALGreen) Adopted	July 2024
2025 Compliance Manuals and ACM Reference Manuals Approved	November 2024
CASE Study Results Reports and CCSRs Complete	December 31, 2024
2025 Compliance Software Available to Public	January 1, 2025
2025 Standards Effective	January 1, 2026

2025 T24 Measure History & Background

- Items to Balance
- Proposal Identification
- Current Measures

Items to Balance

- **Energy savings** and **GHG emissions**
- Load management to support **grid reliability**
- Distribution of proposals across **building types** and **system types**
- Impacts on those who work to **comply** with the code
- Enabling savings to **persist** over time
- **Energy equity**
- Interaction with CALGreen and local reach codes
- Support statewide policies to improve energy performance of the **entire building sector**

Conclusion

Upcoming Meetings

May 16: Lighting Language Cleanup, Controlled Environment Horticulture, and Nonresidential Daylighting

May 17: Single Family Buried Ducts & High-Performance Windows, Multifamily Envelope, and Indoor Air Quality

May 18: Pools, Nonresidential Space Heating, and Commercial Kitchens

May 22: Nonresidential Envelope, Existing Buildings, and Multifamily Restructuring

May 23: Nonresidential and Multifamily Elevators

Find agendas and links to register at title24stakeholders.com/events

Draft CASE Reports

Draft CASE reports (20 in total) will be posted on title24stakeholders.com throughout the next few weeks.

Reports available now:

- Cooling Towers
- NR HVAC Controls/G36
- Refrigeration
- MF IAQ
- SF High-Performance Envelope

Feedback is encouraged! Please share comments to info@title24stakeholders.com

Participate In the Process

Stakeholder engagement is encouraged throughout the code cycle:

- ✓ Share knowledge and data
- ✓ Attend our utility-sponsored stakeholder meetings
- ✓ Participate in CASE surveys
- ✓ Review CASE Reports
- ✓ Submit comments
